

## Respax to partner with Split Payments platform

Respax is excited to be offering a new and exciting product to the industry, Split Payments.

Split Payments is a trusted trading hub purposely built for the tourism industry. It will provide a great solution for client payment settlement and management giving them the ability to automate their bookings, payments and reconciliation process.

Respax are always looking to provide better software and integrated solutions with our ResPax suite of software.

Respax will be the first reservations system to provide a complete end to end solution that could reduce your B2B payment processing costs by 70%.

By automating your accounts process you will be able to focus on growing your business not your back office.
